

WHY?

Why target the Middle Years?

HOW?

What should go into the foundation and lead up in my context?
What tools, approaches, or tasks can I steal?

MY QUESTIONS /
NOTES

MY EVENT IDEAS

Consider Student Agency, Planning, and how visible 'Wellbeing' will be.

CHALLENGES

VS.

BENEFITS

1

6 minutes - sketch a first draft of how a wellbeing conference might look at your school.

1. What will hook student engagement?
2. What student roles could you include, or how could you include student agency?
3. How might you get community involvement?
4. What challenges are there?
5. What benefits out-weight these challenges?
6. What will the event look like?
7. Who could help you achieve your idea?

2

3 minutes - Swap drafts with another person/team. In this space, they need to answer the following:

1. What strengths are in this idea?
2. What questions do they have?
3. What suggestions could they add?

3

Sharing time! A couple of people/groups report something around the idea they'd run with.
